

Program Components

Explore

Offers the opportunity to create community and explore the verticals through interactive panels and fireside chats meant to engage students, professionals and community members in the learning process and discourse relating to current healthcare business topics.

Learn

Encourages individuals to further explore the seven verticals to better understand current trends, news, industry leaders and roles in the broader healthcare ecosystem. Readers have the opportunity to share articles and news of interest.

Connect

Promotes connection for the sake of information gathering and relationship building. Though not a mentorship opportunity, this process allows individuals to connect directly with professionals healthcare related occupations to ask their career, industry, educational, or company questions.
